## Holiday Greetings

In 10 days, we will celebrate our Chinese lunar New Year, Year of the Ox! The Ox is regarded as Patient, Hardworking and Pioneering in our traditional culture, which has the same important when running business. Therefore, we would like to take this opportunity to wish all of our readers health and prosperity, Gong Xi Fa Cai, Niu Nian Da Ji!

## What's going on in the Chinese glass industry

On Jan. 22, 2021, China State Administration for Market Regulation (SAMR) announced on its website that they have launched an investigation in the China Association of Building Glass and Industrial Glass (hereinafter referred to as the China Glass Association) for allegedly organizing some glass enterprises to reach monopoly agreements according to the law. The China Glass Association, whose members are mostly float glass companies, stated in an article published in China Building Materials Daily that it added 13.6 billion yuan extra profit to the industry through certain

measures. As a result, float glass prices soared about 70% over the year's low point in year 2020 and reached a 10 year historical high point. There is certain concern that the rising costs of building materials will lead to a price increase of real estate, thereby spoiling the government's efforts in this field.

Factory 2: No. 251, Jishan Development Zone, Changtai, Zhang Zhou, China

## What's Happening at Tider Glass factories:

With the increasing orders for shower doors, we have recently installed another new line of flat grinding machine, it is the latest version of Go-live brand with a total of 26 grinding wheels. It is not designed to do fast grinding, it is designed for high luster polished edges and perfectly bevelled edges. When comparing our glass panel with others you will see the obvious difference!

### Staff of the Month

Mr. Zhong, started as an engineer in a machinery factory which produced mainly glass grinding machines 15 years ago, has later come into glass industry and works over 10 years, most of the time he worked as the grinding operator. Due to the combined experience as machine fabricator and machine operator, he operates the grinding machines in a way similar to how Hamilton drives F-1, exactly, gracefully and perfectly. With his enthusiasm towards this work, he keeps on improving the machines and grinding wheels, and presents to our customers only the most satisfying glass panels. He is quiet, but the products speak for him!

Mr. Zhong

## Scene around

About 30 minute drive from our factory, there is a volcanic island, it is tertiary central volcano like Mount Fuji. As one of the 10 most beautiful sea islands in China, it is also known as "The Terra Cotta Warriors on the Sea". There are more than 1.4 millions pieces of varied basalt columns, most in shape of pentagon or hexagon, with diameter 6" to 12", height 7ft to 10ft, standing vertically right into the sea. When you see these stone warriors first time, I bet you cannot help admiring this spectacular and miracle of nature!

## A Small Tip

Because we found some cases of Corona Viruses in certain cities in China, to prevent an outburst situation like last year, the government encouraged people to stay at where they work instead of their hometown for the Spring Festival holidays. Therefore, our factory also follows the policy and gives shorter holiday period than normal. (From Feb. 5 to Feb. 20 only). In this way, we can try to fulfill our customers' orders faster. Therefore, if you place orders early, we finish early, so we can have more time to find better shipping rates for you.

## Famous Confucius Saying

In Chinese Pronunciation: **dé bù gū, bì yǒu lín**

Meaning: Virtue is not left to stand alone, He who practices it will have neighbors.
